DHRUV PATEL

SUPPORT ENGINEER | DEVOPS & DEPLOYMENT AUTOMATION | SYSTEM ADMINISTRATION

dhruv00987@gmail.com | +91 91040 91138 | Ahmedabad, Gujarat, India
LinkedIn: linkedin.com/in/dhruv0911 | GitHub: github.com/dhruv091102

SUMMARY

Support Engineer with 1+ year of experience automating builds and deployments for production .NET and web applications. Built CI/CD pipelines for 14+ applications, 4 of them in production, using GitHub Actions and Jenkins. Manages 25 Docker containers on Linux, is moving them to Kubernetes (k3s), and sets up monitoring and logging with Prometheus, Grafana and Loki. B.Tech in Cybersecurity, with hands-on experience in Windows Server, IIS, Active Directory and production troubleshooting.

TECHNICAL SKILLS

CI/CD & Automation:
GitHub Actions, Jenkins, Git, GitHub, Self-hosted Runners, Ansible, Bash, PowerShell

Containers & Orchestration:
Docker, Kubernetes (k3s)

Monitoring & Logging:
Prometheus, Grafana, Loki, Promtail

Systems & Administration:
Windows Server, IIS, Active Directory, Linux (Ubuntu), Microsoft 365, Exchange Online PowerShell

Databases:
MySQL, PostgreSQL (pgAdmin), Alembic migrations

Security:
Web Application Penetration Testing, Vulnerability Assessment, OWASP Top 10

PROFESSIONAL EXPERIENCE

Support Engineer | Naapbooks Limited — Ahmedabad | July 2025 – Present

- Built and maintain CI/CD pipelines for 14+ applications (4 production, 10+ internal/staging) using GitHub Actions and Jenkins
- Scripted build and IIS deployment for .NET and Flutter Web applications, replacing manual release steps
- Built Jenkins pipelines that deploy a web application's API service and IIS-hosted UI, including database schema migrations (Alembic)
- Set up a Linux Jenkins pipeline that deploys a production web application to a shared Ubuntu 22.04 web server hosting 7 domains on every push to staging
- Manage 25 Docker containers for 3 products on an Ubuntu 22.04 staging server; leading their migration to Kubernetes (k3s) for zero-downtime deployments (in progress)
- Set up environment-based configuration, secure secrets management and rollback-ready deployments to reduce release risk
- Sped up pipelines with dependency caching and parallel jobs
- Configured and maintained self-hosted runners for secure on-premises deployments
- Resolved ASP.NET Core startup failures (HTTP 500.30) and service outages (HTTP 503) on production IIS servers
- Implemented PowerShell health checks to validate deployments before go-live
- Rolled out standardized email signatures across all Microsoft 365 mailboxes using Exchange Online PowerShell, piloting before org-wide deployment
- Provided L1/L2 support for infrastructure and application issues

Penetration Testing Intern | Alicorn Solutions — Ahmedabad | Jan 2025 – Apr 2025

- Performed penetration testing and vulnerability assessments on web applications against the OWASP Top 10
- Prepared vulnerability reports with clear remediation guidance for development teams
- Collaborated with senior analysts to improve application security

PROJECTS

Centralized Monitoring & Logging System
Prometheus | Grafana | Loki | Promtail

- Designed centralized monitoring for IIS-hosted .NET applications
- Built real-time Grafana dashboards for server metrics and API performance
- Configured alerts for high resource usage and application failures
- Combined logs and metrics in one place, reducing troubleshooting time

Web-Based Vulnerability Assessment Tool
B.Tech Major Project | 2025

- Built a web application that scans for vulnerabilities based on the OWASP Top 10
- Generated structured security reports from each scan

EDUCATION

Bachelor of Technology (B.Tech), Cybersecurity
Silver Oak University, Ahmedabad | 2022 – 2025 | CGPA: 7.52 / 10

Diploma in Computer Engineering
VPMP Polytechnic, Gandhinagar | 2018 – 2022 | CGPA: 7.90 / 10

LANGUAGES

Gujarati – Native | Hindi – Proficient | English – Advanced
